6 класс

LISTENING- 10 баллов

Task 1

Listen to the interview and decide which answer is correct, a, b or c.

1. George lives in

a Los Angeles.

☒ b New York. ✓

c Aspen.

2. George goes to the studios by

a bus.

b car.

☒ c taxi. ✓

3. In the Actors' Club he

☒ a plays computer games. ✓

b plays basketball.

c goes swimming.

4. George usually goes on holiday

a in summer.

b in February. ✓

☒ c in winter.

5. George's favourite sport is

☒ a jogging.☒ b skiing. ✓☒ c swimming. ✓

Task 2

Listen to the interview again and decide if the statements are true (T) or false (F).

1. ~~Live~~ ^{True} In New York George gets up at 8.15. True —2. ~~Breakfast~~ He meets his friends in Central Park. True —3. ~~Los Angeles~~ ^{True} George works in the evening. False +4. ~~Swimming~~ ^{False} His friends call him lazy. False —5. ~~False~~ He goes skiing in Aspen. True +

Favorite sport is.

A computer game: The Lost Statue

In this game you are in a small country called Neverland. It is a deserted place. The weather there is terrible. It rains a lot and there are strong winds. The only people there are two young brothers. They live alone in their small house on the beach. In the game, you are one of the boys – Josh or Frank. Josh loves the beach very much

and he is good at windsurfing. Frank is interested in doing quizzes and playing guessing games.

One day, they meet a strange man. He collects old things. He needs to find a small statue from the Stone Age and he asks the boys for help.

You decide to help the man. First, you talk to the man and learn about the lost statue. Then, with your brother, organize a trip around Neverland to look for it. On the way you play games, answer questions, do quizzes, visit different places and talk to different people. Collect objects and souvenirs – they are very useful and help you find the lost statue and win the game.

The Lost Statue is a great game! Discover the secrets of Neverland and learn about the old times. Play it now and have fun!

Task 1

Read the text and decide which answer is correct, a, b or c.

1 Neverland is

- a) a big island.
- ☒ b) a deserted country. ✓
- c) an old city.

2 The weather in Neverland is

- a) warm and sunny.
- b) cold and cloudy.
- ☒ c) rainy and windy. ✓

3 Frank and Josh live in

- a) a castle.
- ☒ b) a house on the beach. ✓
- c) a motel.

4 In the game you are

- ☒ a) a boy. ✓
- b) the strange man.
- c) the lost statue.

5 The strange man

- ☒ a) collects old objects. ✓
- b) organizes trips around Neverland.
- c) teaches history.

Task 2

Read the text again and decide if the statements are true (T) or false (F).

- 1 False The two brothers live in a big house in the forest. ✓
- 2 False Josh is good at quizzes. ✓
- 3 True Frank's hobby is playing guessing games. ✓
- 4 False The man wants to find an ancient stone. ✓

5 These Collecting different objects in the game helps the player to finish it. ✓

10/10

USE OF ENGLISH- 14 баллов

Task 1

Choose the right variant

1. Hi! What's your name?

A you name B your name C the name D name ✓

2. Mr Green is our English teacher.

A our B us C we D you ✓

3. The Pyramid of the Sun is from in Mexico.

A from B on C in D at ✓

4. He goes skiing ever winter.

A very B ever C every D always —

5. Look at this airplane in the sky! It's very big!

A these B this C it D that ✓

6. What time do you usually get up on school days?

A used B usual C use D usually ✓

7. Franco doesn't like eating English breakfast.

A don't B doesn't C aren't D isn't ✓

8. Where do you be from? - Barcelona in Spain.

A come B comes C be D go —

9. I sometime visit my grandma on Sunday afternoons.

A some time B sometimes C some D sometime ✓

7/9

Task 2

Read the text below. Use the words given in capitals at the end of some lines to form words that fit in the spaces in the same lines.

Прочитайте текст. Используйте слова, написанные заглавными буквами в конце некоторых строк, для образования слов, которые подходят для пропусков в этих же строках.

Painting the Fence

It was Saturday and a (1) good summer day.

Everyone was on holiday, everyone was happy. Tom looked at the fence in front of him. Thirty yards long and nine (2) foot high!

He sat down under a tree. At that moment he saw Jim (3) love

along with a bucket of water. Now it seemed much (4) skip

than the job he had to do. At (5) one Jim didn't agree.

Then Tom promised to give him a marble.

LOVE

FOOT

SKIP

GOOD

ONE

Task 3

There's a word missing in each of these proverbs 1 - 10. Choose the correct one from the three possibilities.

1. An Englishman's home is his

- a) security
- ☒ b) castle
- c) palace

2. Let sleeping dogs

- a) sleep
- b) dream
- ☒ c) lie

3. Many make light work.

- a) servants
- b) hands
- ☒ c) cooks

4. It takes all sorts to make a

- ☒ a) world
- b) war
- c) salad

5. Prevention is better than

- a) cure
- b) punishment
- ☒ c) medicine

6. is thicker than water.

- ☒ a) coffee
- b) blood
- c) soup

7. A miss is as good as a

- a) mister
- b) mile
- ☒ c) wife

8. Birds of a flock together.

- ☒ a) family
- b) cage
- c) feather

9. It's no use crying overmilk.

- a) sour
- ☒ b) spilt
- c) tinned

10. begins at home.

- ☒ a) charity
- b) learning
- c) love

LISTENING

Time: 10 minutes (5 points)

You will hear five different people talking about their experiences while being in Moscow. For each speaker 1-5, choose from the list of events (A-F). There is one extra letter you DO NOT need to use. You will hear the text twice.

- | | | |
|-----------|-----------------------|------------------------------|
| Speaker 1 | <u>B</u> | A. International Women's Day |
| Speaker 2 | <u>B C</u> | B. Tatyana's Day |
| Speaker 3 | <u>D</u> | C. New Year's Eve |
| Speaker 4 | <u>E</u> | D. Moscow City Day |
| Speaker 5 | <u>E</u> | E. Maslenitsa |
| | | F. Victory Day |

Speaker	1	2	3	4	5
Events	<u>A</u>	<u>C</u>	<u>D</u>	<u>B</u>	<u>E</u>

READING

Time: 15 minutes (12 points)

Task 1. Read the text below and mark the facts as True or False.

Russians call it the Mendeleev periodic table, while in other countries people drop the name of the Russian chemist Dmitry Mendeleev – the scientist who came up with the concept that atomic weights of elements largely predetermine their physical and chemical properties. In the anticipation of an anniversary of this discovery (1869-1870), we decided to find out more interesting facts from the director of the Joint Institute of Nuclear Research, who kindly agreed to answer our questions.

Can you tell us about the history of this discovery and its importance nowadays?
It's amazing but Mendeleev based his classification on 63 elements only, of which just 48 had atomic weights precisely determined at that time. Others had not been studied thoroughly. His first table was put on a sheet of paper with some gaps for unknown elements and he corrected the atomic weights for the elements which he thought were incorrect. All the missing elements were discovered later and all the atomic weights he thought wrong proved to be as he predicted! Now we are working on discovering the 119th of the Mendeleev table and there seems to be no limit. One of the elements discovered recently is named after Mendeleev.

Were there any attempts to classify elements before and after his discovery?

Yes, just a few. The earliest was based on two large groups of acid-forming and base-forming elements. However, this broad classification proved inadequate. The second made a distinction between metals and non-metals. But it turned out to be inconsistent. The German chemist Lothar Meyer put forward similar proposals shortly after Mendeleev, but criticized Mendeleev's predictions of incorrect atomic weights of some elements.

Can the Mendeleev periodic table be regarded as a law of nature?

No one can deny that. It has been verified many times decades after Mendeleev's death in 1907. Now it's as valuable as the work of Copernicus in astronomy or Einstein's theory of relativity.

Was Mendeleev nominated for a Nobel prize?

Yes, three times – in 1905, 1906, 1907. Unfortunately, he failed to get a prize due to the long time that had passed since his discovery and the time when Nobel prizes were first introduced in 1901.

1. 1901 – Mendeleev died
☐ True ☒ False ✓
2. 118 – the current number of elements in the periodic table
☒ True ☐ False ✓
3. 1917 – the second time Mendeleev was nominated for the Nobel Prize
☐ True ☒ False ✓
4. 1903 – Nobel prizes were first introduced
☐ True ☒ False ✓
5. 3 – nominations of the scientist for the Nobel prize
☒ True ☐ False ✓
- 5/5
12/12

Task 2. Прочитайте тексты и установите соответствие между заголовками 1-8 и текстами А-Г. Используйте каждую букву только один раз. В задании есть один лишний заголовок.

Занесите свои ответы в таблицу.

- ☒ 1. Bad weather warnings
- ☒ 2. Calculating weather
- ☒ 3. Sports weather
- ☒ 4. New information from the space
- ☒ 5. The Navy serves the weather
- 6. The power of weather
- ☒ 7. Weather prevents new records
- 8. Speedy winds

A. The Met Office and the Environment Agency are warning the public to be prepared for possible travel difficulties as many areas see 20-40 mm of rain and some areas see up to 80 mm falling by the end of Monday. Steve Willington, Met Office Chief Forecaster said: "A deep area of low pressure is moving North from the Bay of Biscay and will bring a very unsettled kind of weather to all parts of the UK this week. The public should keep up to date with the latest forecast and warnings for their area on our website and with forecasts on TV and radio. Everyone should be prepared for effects of heavy rain and strong winds as they combine to bring the potential for travel problems and localized flooding over the next few days".

B. Metop-B was launched by a Soyuz Rocket from Baikonur, Kazakhstan, yesterday and once in orbit will collect critical data for weather forecasters, such as the Met Office. Along with its partner satellite Metop-A, it will orbit the Earth from pole to pole at an altitude of around 800 km, taking measurements including temperature, humidity and cloud properties, as well as snow and ice cover, sea surface temperature and land vegetation. EUMETSAT will take over control of the Metop- B satellite from the European Space Operations Centre on 20 September 2012, and will spend around six months checking the performance of the satellite in orbit and validating all data taken from its observations. Once this is completed the Metop-B satellite will be declared operational.

C. The Royal Navy submarines are to play a potentially important role helping map the effects of climate change deep under water in the world's coldest environment. Very little is currently known about the areas of water beneath the ice of the Arctic as sensors for long-term monitoring are difficult to place. However, submarines, including those based at Devonport, routinely travel through these remote areas and now the information that crews gather will be made available to scientists. Tim Clarke, a marine scientist at the Ministry of Defence's Science and Technology Laboratory, said it would make a big difference. "What this represents is the availability of important scientific data, previously inaccessible, which can only move the study forward", he said.

D. One of the most famous climbers of all time, Apa Sherpa, who has conquered Everest a record 21 times, says he may not be able to do it again. Why? Because climate change is making the world's highest and most dangerous peak unclimbable. Apa, popularly known as the "Super Sherpa", who first conquered Everest in 1989, told AFP that the absence of snow on the mountain concerns him greatly. He said: "In 1989 when I first climbed Everest there was a lot of snow and ice but now most of it has just become bare rock. That, as a result, is causing more rock falls which is a danger to the climbers".

E. A major winter storm brought very strong winds across much of the UK on 3-rd of January, 2012. The worst affected area was southern Scotland. In this area, this storm was judged as the most severe for 13 years- since 26-th of December, 1998, with wind speed exceeding those of the recent storm of 8-th of December, 2011. Very strong winds were also experienced across much of England, Wales, and Northern Ireland. This storm was followed by a further extremely windy period from 4-th to 5-th of January, 2012 – with further damaging winds across northern and eastern England. These storms followed a particularly turbulent time of weather from late November to mid- December.

F. The idea of creating a weather forecast using dynamic equations was first put forward by English mathematician, Lewis Fry Richardson, in 1922. He realized the dynamics of the atmosphere could be modelled by doing thousands of equations, thus being able to predict the weather. In a pre-computer age, however, the only way to apply his numerical method was by hand. He estimated it would take 64,000 people to perform the calculations needed to make a forecast in time for it to be useful. While this wasn't practical, Richardson's theory formed the basis for weather forecasting as technology improved.

G. The weather can have a huge impact on sports – from cycling to surfing, cricket to beach volleyball. As the UK's national weather service, we're always there when it matters, applying our science so that people can make the most of the weather. Many sports are affected by the weather in some way and conditions are important to athletes and spectators alike. Sometimes the impact of weather on sport is clear for all to see. It can help or hinder – headwinds make running and cycling harder, while tailwinds help push us forward. Some world records are invalid if set under certain conditions. Most of those participating in indoor sports like squash or badminton aren't too worried, but for sports like hockey or windsurfing, the weather is central to the entire event.

10/12

Task 1 Read the text below and choose the correct word A–D for each space 1–10.

There is an example (0) for you.

The Art of Drawing

Drawing has always been a 0 A popular hobby. Young children draw with a pencil as 1 B as they can hold one. Drawing is often seen as a special skill, and it is 2 C that some people seem to draw perfect pictures without any effort. Yet drawing, like writing, can be 3 D; you can draw accurately if you work really hard at it.

Drawing is first 4 A all about looking carefully. It sounds easy to say that all you 5 B to do is look at things, but it really is that simple. The best way to draw a familiar 6 C is to imagine that you are looking at it for the first

7 D.

Nowadays there are 8 A courses and materials available than ever before, 9 B means that you can experiment to improve your skills. The only 10 C is your imagination.

7/10

Part 2 (10 minutes)

Maximum points – 7

Reading

Read the texts A-G below and find a proper heading 1-8 for each text. **There is one extra heading.**

1. Eco-friendlybusiness.
 2. A good place for holidays.
 3. A silent hero of American literature.
 4. In search of luck and happiness.
 5. To those who went west.
 6. An unexpected environmental problem.
 7. Great sights and dangerous creatures.
 8. Dangerous sport.
- A. Geographically, the *Wild West* refers to the states west of the Mississippi River. The American West is both a place and an idea. In people's minds, it was a place that promised excitement because it was new and unknown. From the middle of the 18th century to the beginning of the 20th century, lots of people pushed their way westward trying to find land, better lives, gold and silver, and, sometimes, to escape the law.
- B. Due to books and films, the first thing that comes to mind about the American West is cowboys, rodeos and riding broncos. Bronco is the nickname for a wild horse. When a bronco jumps, it kicks its back legs trying to throw the rider off. Nowadays, there are popular rodeo competitions where cowboys try to remain on aggressive broncos as long as possible. To entertain the public they also lasso cows and bulls.
- C. Yellowstone Park, the first American national park, is situated in the western states. The park has a great variety of natural features – waterfalls, plateaus, canyons, hot springs and geysers. It is also famous for its diverse wildlife and harsh beauty. Camping and backpacking are encouraged at Yellowstone, but visitors must be careful. A few careless or unlucky people have already been killed by angry bears.

- D. In the 1970s and 1980s, people from all over the United States moved to Colorado to work in the mining industry. New citizens of the state capital, Denver, were attracted to the city by its location in the Rocky Mountains and its clean air. However, due to the rapid development of Denver, they got into serious trouble – growing air pollution. Car engines did not burn fuel efficiently at a high altitude and thick smog hung over the city.
- E. In 1935, the federal government selected St. Louis, Missouri, as the site for a new national monument – *The Gateway Arch*. The memorial, also known as *the Gateway to the West*, was to honor the pioneers exploring the American West. Eero Saarinen, an architect, won the nationwide competition with his project for a giant steel arch. Since *the Gateway Arch* was opened in 1965, millions of people visit it every year.
- F. The Mississippi River is often mentioned in Mark Twain's books. In his novel, *Life on the Mississippi*, the famous writer describes the history of the river and his own experiences related to it. There is also a collection of tales that either take place on the river or are associated with it. Another of Mark Twain's famous works, *the Adventures of Huckleberry Finn*, tells us about a journey down the river.
- G. Hawaii is the USA's 50th state. It's a popular holiday destination for the citizens, as well as for foreign tourists. Along with Florida, it's one of a few states where it's usually sunny and hot all the year round. Hawaii is made up of 132 tropical islands, though people live only on seven of them. Tourism is Hawaii's biggest industry. People are attracted to the islands because of their beautiful scenery and beaches. Surfers come to experience the high waves.
